

Exceptional Player Status Policy

To be considered for Exceptional Player Status, applicants must be approved by the Technical Director of Chebucto Minor Hockey. Once the player is approved to participate in the tryout process, the player must attain the following ranking at their position during the evaluation process:

- **Goaltenders:** Top 2
- **Defensemen:** Top 4
- **Forwards:** Top 6

If successful in the association tryout process, the applicant will be invited to join the team at the higher age category. The player may only participate at the **top competitive level**. If they do not meet the required ranking at their position, they will be required to return to their original age group.

Applicants agree to provide any additional information that Chebucto Minor Hockey may consider necessary or desirable in reviewing this application. Applicants further acknowledge and agree that:

- The decision to grant or deny Exceptional Player Status will be made solely at the discretion of Chebucto Minor Hockey.
- All decisions are **final and binding** on all parties.
- **No appeals** will be permitted.
