CRIMINAL RECORD CHECK & VULNERABLE SECTOR SEARCH (Volunteer Screening)

- A current CRC/VSS is required every 3 seasons.
 - Please use this link <http://www.backcheck.net/hockeynovascotia> and ensure you also complete the Vulnerable Sector Search.
 - There is a cost of \$30 associated with this. Once you have paid, please send your receipt to admin@halifaxhawks.ca for reimbursement. Please note that nothing other than \$30 will be reimbursed.

- When you get to the payment page and the amount is anything more (or less) than \$30, STOP EVERYTHING and call 1-877-455-6730. This is the number for mybackcheck. They will assist to get the correct check for \$30. It is up to each person to correct this if necessary. No one else can do this on your behalf as it is confidential information.
- Only those who are registered to a team will be reimbursed.
- **FINGERPRINTING** – if you have been flagged to provide fingerprints, please provide the letter of request to Beth (admin@halifaxhawks.ca) so she can forward it to Hockey Nova Scotia. Coaches/volunteers cannot be removed from the bench for having to submit fingerprints. HOWEVER, should you choose to wait until after the December 1 deadline to apply for your CRC/VSS, the grace period mentioned above **does not** apply and you will have to remain off the bench until your CRC/VSS and or fingerprints are complete, returned to you and processed via the serial number provided to you.
- Please know that if you have security clearance for your occupation, in most case those do not include the vulnerable sector search, so it is still required that you have a current CRC/VSS.
- Below is an example of what a complete CRC/VSS should look like:

CPR/FIRST AID CERTIFICATION

One approved coach or bench staff is to have a current CPR/First Aid Certification.

FINDING A CSA BASIC (EMERGENCY) FIRST AID, CPR (LEVEL C), AND AED PROGRAM NEAR YOU

We understand that various workplaces in Canada already require First Aid, CPR, and AED certified employees for ensuring immediate response during emergencies, and we believe that this standard should be upheld in our hockey community as well. These life-saving skills can make a significant difference when faced with unexpected situations on and off the ice.

To facilitate the process of obtaining the required certification, we encourage each Hockey Association (HA) to collaborate with a local service provider that specializes in offering First Aid, CPR, and AED training programs. We have compiled a list of some potential providers below. Please note there are several qualified independent providers across the province.

- **St. John Ambulance**
 - **Priority First Aid**
 - **Canadian Red Cross**
 - **Lifeshield**
 - **Commissionaires**
-
- Please ensure that the training program includes **Emergency First Aid, CPR (Level C), and AED** certification as the *minimum requirement*. The service provider will work closely with your Hockey Association to customize the training to meet the specific health and safety needs of your respective teams.
 - Training programs are available in various formats, such as in-person sessions over a weekend or multiple evening sessions, as well as online content to accommodate different schedules and preferences.
